Replacing Fonts

PDF version

FTDesign provides the function to replace fonts used in your form. It is a convenient way of making global changes to fonts used in the form. This saves you from manually changing each instance of a font.

How to replace fonts

To replace fonts:

- Select Replace Fonts in the Tools menu.
 In the Font replacement dialog box, click the Add button.

Font replacement			
Eont replacement table	-		[
From	To		
			<u>D</u> elete
		ок	Cancel

In the Add fonts to table dialog box, choose from the Currently used font list the font to replace.

Add font to the table		
<u>C</u> urrently used font:		ОК
Arial	•	
Arial		
Times New Roman		
@Arial Unicode MS	•	

Choose the font you with to exchange to from the **Font that will be used instead** list. This list contains all available fonts.

Add font to the table	
Currently used font:	ОК
Arial	Cancel
Eont that will be used instead:	
Times New Roman 💌	

- Click the **OK** button to add the chosen conversion to the Font replacement table.
- Click the \mathbf{OK} button in the Font replacement dialog box to make the changes.

oncrepiacement tab		
From	То	Add
Arial	Times New Roman	
		Delete
