Split Options

[PDF version](#)

The default folders that FTSplitDef locates the input and output files are specified in Split Options.

To configure the Split options of FTSplitDef:

- Choose Splitting from the Options menu.
- In the Split options dialog box, click the browse "... " button to select the default locations for input and output files.
 - Look in - the default location of raw data files.
 - Split files into - the default location of output files.
