Replacing Fonts

FTDesign provides the function to replace fonts used in your form. It is a convenient way of making global changes to fonts used in the form. This saves you from manually changing each instance of a font.

PDF version

How to replace fonts

To replace fonts:

- Select Replace Fonts in the Tools menu.
- In the Font replacement dialog box, click the Add button.

• In the Add fonts to table dialog box, choose from the Currently used font list the font to replace.
