- ▶ Delete a Queue
- ▣ Queue Properties
 - ▶ General
 - ▶ Processing
 - ▶ Filters
 - ▶ **Print**
 - ▣ Email
 - ▶ Fax
 - ▶ File
 - ▶ Applications
- ▶ Print to ANY Windows Printer
- ▶ Tools

Queue Properties

Select the queue to change by highlighting it. Update the queue settings in the Properties Bar on the right side of the FTSpooler Window.

[Top](#)

Print Tab

To print FormTrap documents, FTSpooler needs a PCL5 or PCLXL (PCL6) or PostScript compatible printer installed on the system. FormTrap uses only the printer's physical location and needs only one printer defined to print in **any** of that printer's available languages. You can print in (say) PostScript by selecting a PCL printer and vice versa. Selecting multiple printers prints one copy on **each** selected printer and is the best way to produce collated copies.

More information on Printer licensing

Select printer(s) from the available list for the queue.

Click the **Define filters** button to choose the filter(s) for the printer.

More information on Define filters

More information on Print to ANY Windows Printer

Click the **Apply** button to save the changes.
